Invitation

Dear colleague,

Both dermatologists and pediatricians encounter children with skin problems on a daily basis. The aim of this course is to provide the participants with detailed up-to-date knowledge of common skin conditions and clinical clues to arrive at the diagnosis of rarer and more serious conditions.

This year again the lectures will be delivered by leading experts in respective fields, chosen to inspire as well as educate.

In order to facilitate interactions, the number of participants is limited. Registration forms will be treated on a strictly first come first served basis. Participation is not guaranteed until full payment of the registration fee is received. Thanks to our main sponsors (CSL Behring, Eucerin, Leo, Nestlé, Pierre Fabre & Sanofi) and several co-sponsors the registration fee for dermatologists and pediatricians can be kept down to the symbolic amount of 50 €. The course is free to trainees and members of the ESPD and ISPD.

We look forward to welcoming you to our symposium.
