SELECTIE VAN DE JOURNAL CLUB VOOR SEPTEMBER 2015.

REVIEWS EN OVERZICHTSARTIKELS

Recent advances in paediatric respiratory medicine.

What's New in Pediatric Flatfoot?

Streptococcal serology - secrets for the specialist.

Acute pyelonephritis in children.

Autism spectrum disorder (ASD) and its perioperative management.

The eye in child abuse: key points on retinal hemorrhages and abusive head trauma.

Diagnosing abusive head trauma: the challenges faced by clinicians.

A PIECE OF MY MIND. The "Good Person" Sign.

KLINISCHE STUDIES

Long working hours and risk of coronary heart disease and stroke: a systematic review and meta-analysis of published and unpublished data for 603 838 individuals.

Long working hours: an avoidable cause of stroke?

Should children with overweight or obesity be excluded from height references?

Effectiveness of the 10-Valent Pneumococcal Conjugate Vaccine Against Tympanostomy Tube Placements in a Cluster-Randomized Trial.

Paracetamol for the treatment of patent ductus arteriosus in preterm neonates: a systematic review and meta-analysis.

Ultrasound detection of pneumonia in febrile children with respiratory distress: a prospective study.

Where do the differences in childhood mortality rates between England and Wales and Sweden originate?

Development and Validation of a Rome III Questionnaire for Infant and Toddler Functional Gastrointestinal Disorders.

Prevalence and Health Outcomes of Functional Gastrointestinal Symptoms in Infants from Birth to 12 Months of Age.

Maintenance of Pain in Children with Functional Abdominal Pain.

Gallbladder and Pancreas in Henoch-Schönlein Purpura - Review of the Literature.

Quantitative analysis of cranial ultrasonographic periventricular echogenicity in relation to early neuromotor development in preterm infants.

Concurrent Respiratory Viruses and Kawasaki Disease.

Association Between Transient Newborn Hypoglycemia and Fourth-Grade Achievement Test Proficiency: A Population-Based Study.

Revisiting Transitional Hypoglycemia: Only Time Will Tell.

Gastric Emptying of liquids in Children.

Head injury from falls in children younger than 6 years of age.

A Re-appraisal of the Minimum Duration of Antibiotic Treatment Before Approval of Return to School for Children with Streptococcal Pharyngitis.

Impact of Human Rhinovirus Types and Viral Load on the Severity of Illness in Hospitalized Children with Lower Respiratory Tract Infections.

History, blood tests or skin prick testing? Is it possible to predict the severity of allergic reactions in children with IgE-mediated food allergy? Harleman L, Sie A. Arch Dis Child. 2015 Jun;100(6):594-8.

Randomized, double-blind, placebo-controlled study of synbiotic yogurt effect on the health of children.

Long-term outcomes of children with intermediate sweat chloride values in infancy.

N-methyl-D-aspartate receptor antibody-mediated neurological disease: results of a UK-based surveillance study in children.

Association between tension-type headache and migraine with sleep bruxism: a systematic review.

Septic arthritis and acute rheumatic fever in children: the diagnostic value of serological inflammatory markers.

Home Reading Environment and Brain Activation in Preschool Children Listening to Stories.

Constipation in the Critically Ill Child: Frequency and Related Factors.

Influenza C Virus and Human Metapneumovirus Infections in Hospitalized Children with Lower Respiratory Tract Illness.

Severe Congenital Heart Defects Are Associated with Global Reduction of Neonatal Brain Volumes.

Borrelian Lymphocytoma in Children.

Prevalence, repairs and complications of hypospadias: an Australian population-based study.

Relation of Cardiometabolic Risk Factors between Parents and Children.

Novel risk factors for recurrent Clostridium difficile infection in children.

Fecal microbiota transplantation via nasogastric tube for recurrent clostridium difficile infection in pediatric patients.

Outcomes of Daytime Procedures Performed by Attending Surgeons after Night Work.

**PROTOCOLLEN EN RICHTLIJNEN EN EVIDENCE BASED PEDIATRICS**
