REVIEWS EN OVERZICHTSARTIKELS

Fecal Microbiota Transplantation: Just A Fancy Trend?

Definition of a pediatrician.

Managing media: reflections on media and video game use from a therapeutic perspective.

Supervisor or mentor: is there a difference? Implications for paediatric practice.

Imaging in suspected child abuse: necessity or radiation hazard?

Defining normal heart and respiratory rates in children.
Parslow RC. Arch Dis Child. 2015 Apr 20.

Cervical Discitis in Children.

Daytime napping in preschool-aged children; is it to be encouraged?
Wiggs L. Arch Dis Child. 2015 Apr 15.

The Feedback Whirlpool of Early Childhood Sleep and Behavior Problems.

Importance of the Physical Exam: Occult Blood and the Perianal Exam in Screening for Pediatric Inflammatory Bowel Disease.

The role of infant appetite in extended formula feeding.

Optimal management of allergic rhinitis.
Scadding GK. Arch Dis Child. 2015 Apr 2.

Infant sleep-related deaths: why do parents take risks?
Volpe LE, Ball HL. Arch Dis Child. 2015 Mar 31.

Prokinetics prescribing in paediatrics: evidence on cisapride, domperidone, and metoclopramide.

Clinical problem-solving. A history lesson.

**KLINISCHE STUDIES**

Prevalence and correlates of use of complementary and alternative medicine in children
with autism spectrum disorder in Europe.

Potentially harmful excipients in neonatal medicines: a pan-European observational study.

Monitoring of Cerebrovascular Reactivity for Determination of Optimal Blood Pressure in Preterm Infants.

Total Peripheral Vascular Resistance, Cardiac Output, and Plasma C-Type Natriuretic Peptide Level in Children with Postural Tachycardia Syndrome.

Weigl M, Schneider A et al. Eur J Pediatr. 2015 Apr 7

Randomized, Double-Blind, Placebo-Controlled Study of Synbiotic Yogurt Effect on the Health of Children.

Different antibiotic strategies in transient tachypnea of the newborn: an ambispective cohort study.

Neuroimaging experience in pediatric Horner syndrome.

Immunodeficiency among Children with Recurrent Invasive Pneumococcal Disease.

Clinical zinc deficiency as early presentation of Wilson disease.

Screening and Routine Supplementation for Iron Deficiency Anemia: A Systematic Review.

Antibiotic exposure in infancy and risk of being overweight in the first 24 months of life.

A randomized, controlled trial of an aerosolized vaccine against measles.

Should pregnancies be induced for impending macrosomia?

Induction of labour versus expectant management for large-for-date fetuses: a randomised controlled trial.
Valganciclovir for symptomatic congenital cytomegalovirus disease.

Chromosomal microarray in unexplained severe early onset epilepsy - A single centre cohort.

Recognition of elevated blood pressure in an outpatient pediatric tertiary care setting.

The diagnosis of concussion in a pediatric emergency department.

Late-onset group B streptococcal meningitis has cerebrovascular complications.

The Association of Vitamin D Status with Acute Respiratory Morbidity in Preterm Infants.

Neurodevelopmental outcomes after cardiac surgery in infancy.

The early benefits of human papillomavirus vaccination on cervical dysplasia and anogenital warts.

Maternal prepregnancy body mass index and child psychosocial development at 6 years of age.

Neurodevelopmental outcome in children with congenital heart disease: a work in progress.

Heart rates in hospitalized children by age and body temperature.

Erythropoiesis Stimulating Agents Demonstrate Safety and Show Promise as Neuroprotective Agents in Neonates.

Longitudinal Effects of Dietary Sodium and Potassium on Blood Pressure in Adolescent Girls.

Association Between Assisted Reproductive Technology and Cardiac Alteration at Age 5 Years.

Oral amoxicillin compared with injectable procaine benzylpenicillin plus gentamicin for treatment of neonates and young infants with fast breathing when referral is not possible: a randomised, open-label, equivalence trial.
Simplified antibiotic regimens compared with injectable procaine benzylpenicillin plus gentamicin for treatment of neonates and young infants with clinical signs of possible serious bacterial infection when referral is not possible: a randomised, open-label, equivalence trial.

Use of cell-free DNA to screen for Down’s syndrome.

Copy-number variation and false positive prenatal aneuploidy screening results.

Cell-free DNA analysis for noninvasive examination of trisomy.

Biologically inactive leptin and early-onset extreme obesity.

Clinical and Virologic Characteristics of Early and Moderate Preterm Infants Readmitted with Viral Respiratory Infections.

Impact of Rotavirus Vaccination on Childhood Hospitalization for Seizures.

Limited effects of intravenous paracetamol on patent ductus arteriosus in very low birth weight infants with contraindications for ibuprofen or after ibuprofen failure.

PROTOCOLLEN EN RICHTLIJNEN EN EVIDENCE BASED PEDIATRICS

Practice parameter for the assessment and treatment of children and adolescents with eating disorders.

Two Infants, Same Prognosis, Different Parental Preferences.

The Male Genital Examination: Overcoming Barriers to Prevent Missed Diagnoses.

Children with Thoracic Aortic Aneurysm: Challenges in Diagnosis and Therapy.

Testing for Infectious Diseases in Sudden Unexpected Infant Death: A Survey of Medical Examiner and Coroner Offices in the United States.

CASUÏSTIEK
**Case 2: a 10-year-old girl with hip pain.**

**A Mass in the Vaginal Introitus.**

**Case Report of Successful Treatment of Pallid Breath-Holding Spells With Glycopyrrolate.**

**Riga-Fede Disease: Traumatic Lingual Ulceration in an Infant.**

**Sudden painless nail shedding.**

**Case 2: Severe headache and paroxysmal seizures in a 14-year-old boy with cyclic vomiting syndrome.**

**Case 1: A two-year-old boy with fever and widespread vesicular lesions.**

**Asymptomatic Mycoplasma Infection Causing Acute Demyelinating Encephalomyelitis: Case Report and Review of Literature.**

**Stickler syndrome associated with epilepsy: report of three cases.**

**Orange-brown chromonychia in Kawasaki disease.**
James R, Burgner D. Arch Dis Child. 2015 Mar 25

**Red Chromonychia in Kawasaki Disease.**

**Case records of the Massachusetts General Hospital. Case 12-2015. A newborn boy with respiratory distress, lethargy, and hypernatremia.**

**Case 26-2014: A 21-month-old boy with lethargy, respiratory distress, and abdominal distention.**

**Case records of the Massachusetts General Hospital. Case 10-2015. A 15-year-old girl with Graves’ disease and psychotic symptoms.**
